

Hyunwoo Park

Curriculum Vitae

Seoul, Korea — pzls@konkuk.ac.kr — LinkedIn — Github

EDUCATION

M.S.

Sep. 2023 - Aug. 2025

Konkuk University, Seoul, Korea

Department of Electrical and Electronic Engineering

Advisor: Wonjun Kim

B.S.

Mar. 2017 - Aug. 2023

Konkuk University, Seoul, Korea

Department of Electrical and Electronic Engineering

Military service (May 2018. - Jan. 2020.)

PUBLICATIONS

DropGaussian: Structural Regularization for Sparse-view Gaussian Splatting

CVPR, 2025

Hyunwoo Park, Gun Ryu, and Wonjun Kim

Multi-scale and Multi-view Feature Blending for Free-viewpoint Rendering of Dynamic Humans

VCIP, 2023

Hyunwoo Park, Hyukmin Kwon, Seong Yong Lim, and Wonjun Kim

Sampling is Matter: Point-guided 3D Human Mesh Reconstruction

CVPR, 2023

Jeonghwan Kim*, Mi-Gyeong Gwon*, **Hyunwoo Park**, Hyukmin Kwon, Gi-Mun Um, and Wonjun Kim

* equal contribution

RESEARCH EXPERIENCE

ETRI Research Project: AI-based Volumetric 3D Object Generation

APR. 2022 – DEC. 2022

Conducted research on generating 3D volumetric object information from unstructured data; developed and optimized algorithms for high-fidelity 3D mesh structure generation.

ETRI Research Project: HumanNeRF via Multi-view Video Inputs

JAN. 2023 – DEC. 2023

Researched and implemented HumanNeRF models for photorealistic human body reconstruction; optimized model architecture to process multi-view inputs, enhancing spatial consistency and rendering quality.

TECHNICAL SKILLS

Languages: Python (PyTorch, Jax, Numpy, Anaconda), C++, CUDA

Deep Learning: Computer Vision, Neural Radiance Fields (NeRF), Gaussian Splatting, 3D Reconstruction

REFERENCE

Wonjun Kim, Professor, Konkuk University
